

RECYCLED ARTWORK

If you're anything like us, you probably have excessive amounts of things waiting to be recycled right now!

For today's activity, we'll be putting these items to good use! Many artists use trash and recyclable items in their work and today, we're encouraging you to do the same!

Collect some cardboard, paper scraps, or even old toys and create a work of recycled art of your own! If you need some inspiration, check out some of the artists featured on the next page!

RECYCLED ARTWORK

Michelle Reader

A British artist who uses recycled items as well as mechanical pieces like parts from toys or clocks.

Wim Delvoye

A Belgian artist who carves intricate designs into recycled tires.

Marina DeBris

An Australian artist who uses recycled trash to bring awareness to beach and ocean pollution.
