

# DIY STAMPS

## What You'll Need:

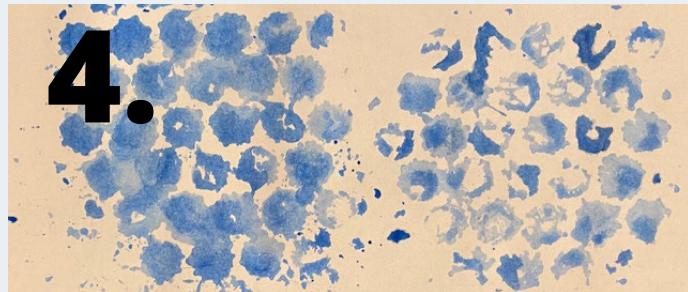

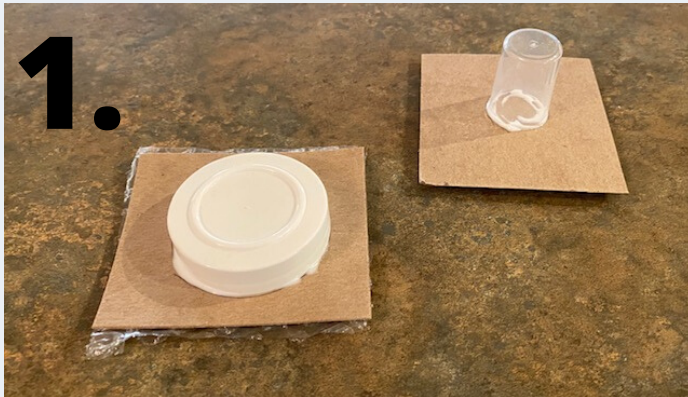

Paint, Glue, Scissors, Paper, Miscellaneous Recycled Items (Cardboard, Plastic, etc.)

## Instructions:

1. Cut out squares of cardboard to use as the base for your stamps.
2. Choose what items you'll be using to create the stamp pattern. We used bubble wrap and cut up cardboard, but get creative! Glue this to your cardboard base. Let dry.
3. You will also need a recycled item to use as the handle. We used plastic lids for our examples. Glue this to the other side of your cardboard and let dry.
4. Apply paint to your stamp, and print onto a sheet of paper!

# DIY STAMPS

1. Stamps with Handles
2. Back of Stamps
3. Square Stamp
4. Bubble Wrap Stamp
