

# ANTONI GAUDI & BARCELONA

## Antoni Gaudi

Antoni Gaudi was a Spanish architect. Most of his works can be found in Barcelona, Spain. Two of his most famous pieces are La Sagrada Familia and Park Guell. He was influenced by Neo-Gothic art and became a part of the Modernist movement. His style included the use of bright colors and unusual shapes.

La Sagrada Familia

Mosaic bench in Park Guell

# ANTONI GAUDI & BARCELONA

## Project Description

Today's project is inspired by Gaudi's use of mosaic in Park Guell. Start off by drawing a basic animal. We chose to draw a whale. Make sure that most of the details are left out and there is lots of room to color inside the animal. Experiment with colored pencils or markers and try out different shapes and color patterns. We used circles and rectangles but get creative! It might not look like a mosaic at first, but you'll be surprised with the end result!
