

ALEXANDER CALDER PAPER SCULPTURES

Alexander Calder:

Calder was an American sculptor. His sculptures are large, abstract pieces. Take a look at his sculpture, La Grande Vitesse! Today we're going to be making our own Calder inspired sculptures!

Procedure:

Cut a rectangle out of a piece of construction paper or cardstock. Fold the rectangle in half. Make cuts across the paper without touching the fold (see examples). Unfold and stand up. For extra fun, decorate with markers, stickers, or glitter!
