

WATERCOLOR DRAGONFLY

Supplies:

- Watercolor paper
- Watercolor paints
- Brushes
- Black Oil Pastel
- Optional: Artist tape

Procedure:

We used artist tape to create a "frame" for our picture, but this step is optional! Next, you'll want to draw your dragonfly using the black oil pastel. You can sketch it in pencil first if you need to! After that, just paint! The process is simple but the results are really cool!
