

SYMMETRICAL PATTERNS

Supplies:

- white paper
- black crayons
- colored markers/pencils/crayons
- ruler

Procedure:

Fold your paper into quarters. Unfold and fill in one quarter with the black crayon, using the pattern of your choice! Then, fold your paper in half and use your ruler to smooth the paper. This should create a faint copy of your pattern on the other side (see image for reference)! Go over again with the crayon and repeat until your page is full! Lastly, color in your artwork!
