

# LAST MINUTE MOTHER'S DAY CARD

## Supplies:

- Paint Samples
- Construction Paper
- Black Marker (Sharpie)
- Glue
- Scissors

## Process

- Draw the outline of your flower using your marker (you can sketch it in pencil first)
- Cut shapes out of your paint samples. These can be any shape you want, or you can use different shapes! We used all squares for this example.
- Place your shapes onto the flower outline.
- When you have them arranged how you want them, glue them on and let dry!
- Add a note to complete your card!
